Consumers of Ink.

The undersigned begs to inform the highly respected community of this city and the country, that he has established an

INK MANUFACTORY.

No. 50, Calle 25 de Mayo.

And is prepared to sell as good luck, as any made in any part of the globe, and warranted to retain the beautiful set black color which it has at the moment when used, at 50 p. $ less than the same can be bought at any other houses.

People under the impression, that they pay their Ink dear, for a quart bottle of English Ink, may have the same proved, that most of the Ink sold for English, is made in this country, and imported under the pabble as such. But I am not ashamed to put my own Name on the labels, being fully convinced that my Ink is of a much superior quality, and possesses more virtues than most of the Inks.

I—It is of a very rich black at the moment when used.

II.—Retains its color.

III.—Runs freely off the pen.

IV.—A preserver of the pens to its use, who have much to write at night because they need not to force their eyesight, to see what they have written.

For the reasons explained, I hope that my patrons here generally encouraged Home Manufacture will be land upside, and as I ask, is to try this same which will be a benefit to the buyer, and the country, in assisting the Home Manufacture.

WEDNESDAY, APRIL 15, 1868.

URQUIZA & MITRE.

The past and present of the Argentine Republic are personified in these two individuals. Perhaps the truest sign of our progress is the decision of the people of Buenos and its province simultaneously with the speedy rise of a civilising power which casts its roots wide and deep, in the fertile soil of free public opinion. It may also prove grateful to throw aside an instrument which has been highly useful in the work of national re generation; for no one can deny that the republic owes much benefit from the sword of Urquiza on the field of Caseros, but the hour has passed when such help would be of further for good purposes, and today we arrest regard the gaucho legions in the same light as the Italian manifestoes whose presence would be far from conducive to felicity.

So many contrary ideas prevailed, respecting the mutual relations of these two personages, that we gladly publish the following letter from President Mitre to Gov. Sarmiento.

"As Ex Entre-Rios, I may remark although things do not go on so wonderfully even as in the Utopia republic, the amount of events is favorable. For the honor of the country and benefit of a people just recovering from a long martyrdom, I prefer adopting quiet and prudent measures to smooth down many difficulties presenting themselves: but I am also provided with superabundant elements to oblige individuals and events to follow the proper course. If necessary I would take very energetic step. for I am not resting on my oars: I have ten steamers and 15,000 men ready for any emergency and can clear out any part of the republic, within 15 days As a soldier and a statesman, look at things and not philosophy in the anxious I rely, however, much more on a pacificating army which has just taken the field, and whose commander-in-chief is our common friend, Urquiza, —the Cordoba railway corps.

This splendid enterprise is a *fait accompli*, and the enthusiasm, which has had aroused among the inhabitants, shows that a sentiment of peace and progress has for ground ground, so that to cure the Rioja cask which at present afflicts our body corporate.

Your province, I am happy to say, pays over a million Government and the S. Juan silver mines will prove a powerful aid to do away with the Bedouins of Rioja. Do Domingo Oro will tell you what interest I took in that matter.

HURRAH FOR VILLA URQUIZA!

Entre Rios is about to acquire a more lucrative reputation than of yore, or even than any of the sister-provinces. Urquiza was one of the first who applied to us for cotton seed, and his good example has been fruitful of industrial speculation, throughout the province. We publish the following interesting letter from St. Cegueroso, an enthusiastic proselyte of the Cotton preaching to D. Sabastiniano Pujanta, who has proved our able ally.

Villa Urquiza, March 17th 1868.

I may be open to the suspicion of ingratitude, for delaying to acknowledge the receipt of the *Standard* cotton seed, but I can now assure you it was all well-disposed of, and if there were much more, we should also have employed it. I should wish to know what class the seed is. The few that I planted with Sor Agulla, came up in 4 days although the treetops I have read state that 10 or 12 days is required. I have also planted with in Carmelo, Mussey and others as they seem to look practical experience. Some say the plants should be 2 yards apart, others only half a yard: you must remember there are different kinds of seed which accounts for the various theories.

It would be well to keep the planter free from mistaken notions, as other wise the results may disappoint him, and the industry will fall. Every thing seems certain that the 1st crop is the worst, and the first the best: moreover it is well to pick up all the plants in succession till, as you say, although some writers advise leaving two and to keep the plants 2 or 3 feet distant. This is my method as on other plants the ground is more and ventilation besides a space between the lines to admit of pulling the fruits: I tried one line see if I could. Our cotton, which was said to be very good. In two first year it yielded an excellent crop; the plants being 3 feet number, and I now send the cotton to various friends as a specimen of Entre-Rios growth.

I will send you a flower of what we planted in St. Cegueroso, as soon as it is ripe, and I hope you will prize the fruit of your intellectual and manual labors more than if it were an Arabian camelia."

Ignacio Cigarraya.

EDITOR'S TABLE.

We bought yesterday of Mr Madolle of the Diamante, 18 arrobes of cotton in the seed, at the rate of 125 dollars per arrobe. From this we expect, as at the rate of 5 paper dollars per pound, with the seed. As fr ends of the country, a d pledged to make cotton grow in the Argentine provinces, which is prov willing to risk the last farthing we have got in the enterprise. As we have every prospect of having an abundance of seed for the next season, we call upon every man, woman, and child in the interior to sow cotton. Neither wool nor sheep, nor cattle are known, but cotton will pay like a fee queues of cotton.

We learn, with pl asure, that capt Bowen has purchased the "Commander," and another of our river steamers, with the intention of starting a line of his own, on the rivers. Competition is the life of trade, and we hope such competition may long. The agents of the Steamboats inform us that expence are to be high, anything under 8 & 4 pun to Montevideo is cheap.

The drought in the South still continues, we regret to say. The sheep are dying by thousands, and farmers are becoming nervous We are now approaching May, when the frosts generally set in, which in exactly what concerns the cotton. We must, however, only hope for the best. The winter may, as it very often does, set in wet; if so the cotton crop will be so much the better for the farmer.

We are in momentary expectation of the English mails per H. M. W. S. Brazilian Line. By last mail advices from Montevideo, she had not arrived there yet, but as this vessel will carry nothing but the mails she will probably make a much longer stay a few hours in Montevideo, unless our energy consul general Mr. Lettsom should require her services to convey letters to the Provinces of Entre Rios and Corrientes. we perceive quite a stir in the sheep farming business. Estancieros are getting about refusing to sell their sheep and importing small points of ewes and Rams, for the purpose of breeding from their own stock. Sheep cannot fail to be a most lucrative business for all who engage in it, it has proved so in Buenos Ayres, and we see no reason why it should not be so in the same results up there. Criollo sheep are selling in Corrientes to-day at 1½ a boliviano or 12 paper dollars. Lucky will be got at 4 more nominal rent with both wood and water. The Indians are unknown there the grass is always abundant and nutritious, so that the safest and best business, a man of small capital can engage in an English gentleman of ours they has bought lately 23 square leagues for a mere trifle, he is now shipping a small flock of picked ewes, and some rams, he then intends to purchase about 5,000 criollo sheep and refine the breed.

It is surprising that no one has attempted this business before now in that province. There is, of late years, a good deal of go a-head-ism in Corrientes; cotton has even risen on a larger scale than in Entre Rios, and the tobacco plantations tobacco, bids fair to rival soon that of Paraguay; new saladeros are going up. On the whole we are much that the Corrientes are having several of the other provinces behind.

In Entre Rios, the sheep-farmers are also increasing, and good mestiza sheep are not to scarce as a few years since. One of the largest rum establishments in that province belongs to an enterprising countryman, who is one, we hear, about to purchase another estate in Corrientes, where he will always have for sale some of his superabundant embonbon in store.

At Merlo on Sunday night we heard another murder has occurred, one gaucho stabbed another with a fleam! we hope the authorities will stir themselves and not allow the murderer to get off scott free as too often is the case.

Horrible Military Outrage!

We regret to be obliged to give the particulars of a most horrible outrage which took place under the Retiro Barracks.

A shoker on the Northern Railway, named Rigley, and a workmen in the employ of Mr E. Murray, contractor, had changed a non-inhabited hill, at a spring stone, near the Retiro hill, in the presence of some soldiers, and had just left the house, on going home, when they were attacked by about half a dozen soldiers. Poor Rigley defended himself manfully but one of the ruffians struck him in the right, the latter was twice traversing the right lung The other man has got a frightful gash in the head, and has received several wounds in the body.

Mr Monte-deoon gives it as his opinion that Rigley cannot live Mr Murray, we are sorry to learn has also received the poor fellow is of the same opinion.

No doubt whatever exists that the fellows who committed this outrage were soldiers, but whether of Coronel Commander Escola's celebrated regiment or not, we cannot as yet say.

Mr Simpson, the station master, declares that Rigley is dangerous after sundown. He and his brother were stopped the other night, by some soldiers. Mr King, engineer of the northern Rail ay, we are told was pursued one night by two fellows, who were diverted from their amusement by Mr King's revolver.

We trust that the police will pay attention to these sad facts, which cannot be denied. It is only last week that Commander Escola seems to have gained a victory against the Indians, for cuffing public attention to a military outrage near the 11 de Setiembre, but we shall take every possible mea sure to try and discover if these soldiers were artillerymen or not. The residents about the Retiro complain that the soldiers are allowed to be going about at all hours of the night, which we consider improper. After dark, they should not be allowed outside the barrack.

THE RACES
AUTUMN MEETING.

The Argentine races, on last Sunday, were a complete fiasco before the appointed hour crowds of people were on the ground. Every seat in the stand was occupied.

The first race was a dull affair. Gannone in easy. A good deal of small cash changed hands on this race,

2nd. The betting was much better run. The terdillo Patagones distanced all his competitors, the same Poco Importa coming in second.

3rd The last was the race of the day. Mas ó Menos being the favorite. Ituzaingo, which was decidedly the best horse, came in first by a length, but was disqualified, on the ground that the rider of Ituzaingo had driven Mas ó Menos against the wires, the race remains undecided.

4th. This was an animated race. Buey del Salado beating Esperanza with ease.

5th. The last race was very exciting The entire Municipal corning in first Cañon Rayado second, We are glad to record that every thing went off quietly, the losers drowned their woes in Mr. Deacon's sparkling Champagne and the winners were in such spirit that they were about to chair Mr. Oliver round the town When the last train was about to start, one individual who can identified by the number of his hat, commanding his ticket, a most unpardonable offence, was ejected, *solens, nolens*, and obliged to walk the rest of the journey.

CANCELAS.

April 12th.

Without exaggeration, out of every 100 of our town population, at least 50 are in the hands of the doctors, and the remainder are ill or dying. Rice and gallop all day. It is really grieving to see young women from 15 to 20 years of age, after having gained the symptoms of consumption die off and taken away from amongst us. I attended the funeral of one on Saturday last, which was heart rending, Deaths are so common that we are afraid to ask the question is, each morning, is he or she dead? Typhus-fever is made itself respected, although every one does all in its power neither to fear nor young. Rain is badly wanted, although none about here have to draw water yet. Laundering, with few exceptions is backward. If at the end of this month, the heat, and the beginning of June sets in the same as last year, many will have to give up the idea of their lambs. Sheep and cattle are in good condition. I visited Mr White a few days ago. He took me to see his wonderful farm covering a few cabinals could surpass them. Such of our countrymen who want good cows, should go and judge for themselves the best proof is that, in the last shearing, big and little produced four to the arrobe—that is, the sheep of the establishment.

Yours, &c,

G.

PARAGUAY.

Holy Week was celebrated with great solemnity at Asuncion. Eleven European monarchs have congratulated Pres. Lopez. Very heavy rains fall in March, and a stroke of lightning killed two youths in a house. A new printing stock has been sent from the employ of Mr E. Murray, contractor, had changed a non-inhabited hill, at a spring stone, near the Retiro hill, in the presence of some soldiers, and had just left the house, on going home, when they were attacked,

We are happy to call attention to another novel sale, which was effected on the 20th of the Argentine cotton at 9 3/4 in the yard The cotton is not of the best color, and seems not to have been picked in time. Cotton growers in any part of this Republic can have what ends made by the Editors of this paper. on consignments. The cotton will be gained immediately and shipped with best ability.

Omnes fell slightly to-day, and are very weak. A good bear would run the market down 20 or 30 per cent. The bulls seem to have all left the rules.

Wool has a decidedly upward tendency; the Germans have at last come in as buyers, and prices are looking up.

Amber Teeth Setting.

156—Calle Cuyo—156

harles E. Krause sets teeth by a new invention, amber, which is much superior to every other mode. It accommodates itself to the gums and palate much better than gold, which requires springs. A set of teeth in amber, after two days, serves for mastication, speaking and lasts a life time.

My collection of artificial teeth is very fine, and cannot be distinguished from a natural set. I will also clean teeth with great care.

I have made use of instrument for extracting roots of teeth, also for stuffing the same with gold, silver, &c., which I guarantee for a number of years.
